

Volume 29 Issue 2

Winter 2007

Winter 2007 FACSE

Diane Smith

I have been having a busy but very enlightening year so far as your President. The planning and implementation of Fall conference was a growth experience I thoroughly enjoyed. I am pleased with all the positive comments received about Fall Conference. It is truly a huge undertaking with many members involved from both WAFCS and FACSE organizations. I also learned from my mistakes and have passed on to Sarah McCoy, President-elect, ideas and suggestions made in the evaluations forms.

President's Corner

At present, I am preparing for WA-ACTE summer conference being held in Yakima on August 13-15 with pre-conferences on Sunday, August 12th. I met with Betty Klattenhoff, Sarah McCoy and Joanne Patrick in Olympia to discuss format, speaker and workshops. We are all excited with the outcome of the meeting. I will soon have information on the website and through email with more details. Start gearing up for summer by convincing your CTE advisory board, director and school district that it is important that you attend both summer and fall conferences. We promise an excellent program at each with materials to take back to the classroom so that you can add to and

improve your curriculum.

We need names of teachers willing lead a section during the roundtable session and teachers to contribute lesson plans and materials for the roundtable session. Contact me at email DianeS@wapato.k12.wa.us with any comments, suggestions or ideas to help us plan summer conference. Receiving information from members is what helped make Fall conference so successful. I look forward to hearing from you.
